

# Uapikunuu Learns About Rabies

**Rabies is a serious disease of animals that can also affect people.**

**Make sure your pets get their regular rabies shots**

**Keep your pets under control at all times**

**Avoid wild animals such as foxes, wolves, coyotes and bats and report any cases of strange-acting animals to adults in your community**

**Protect your family and pets by following some simple steps:**

**For more information on rabies in Ontario please go to:**  
**[www.ontario.ca/rabies](http://www.ontario.ca/rabies)**

**Learn about the risk of rabies in your area**

**Wear gloves when handling wild animals and always wash your hands afterwards**

**See your family doctor or nurse if you get any animal bites or scratches, and immediately wash any wounds with soap and water**

Based on the *Adventures of Uapikunuu* book series and produced in cooperation with:
