

PFIZER FOR KIDS

The mRNA Pfizer-BioNTech COVID-19 Vaccine is now approved for kids born in 2009 and earlier.

WHY SHOULD MY KID GET IT?

**VACCINE
EFFICACY
100%**

in a trial with 2260 kids (12-15y/o),
50% got the Pfizer vaccine

**ZERO
vs
18**

kids got COVID-19 after
getting Pfizer vaccine

kids got COVID-19 after getting
a placebo (usually normal saline)

**TO PREVENT KIDS FROM GETTING
REALLY SICK FROM COVID-19**

**TO LIMIT THE
SPREAD OF COVID-19**

**TO PROTECT OUR
COMMUNITY**

**SO WE ALL CAN START
GOING BACK TO NORMAL**

WHY ARE KIDS GETTING PFIZER WHEN THE REST OF THE COMMUNITY GOT MODERNA?

As of May 5, 2021, Pfizer BioNTech is the
only COVID-19 vaccine approved for people
12 and up, while Moderna is only approved
for anyone 18 and up.

(studies are being done on Moderna in kids as well!)

MODERNA

Once opened, must
be used in 6 hours

Approved for use
for anyone born in
2004 or earlier

Working on getting
approval for anyone born
in 2009 or later

PFIZER

Once opened, must
be used in 6 hours

Approved for use
for anyone born in
2009 or earlier

Working on getting
approval for anyone
born in 2020 or later

Both are mRNA
vaccines - they work
very very similarly

REPORTED SIDE EFFECTS IN KIDS

please note not everyone feels side effects the same

**INJECTION SITE
PAIN (90.5%)**

**FEELING TIRED
(77.5%)**

**HEADACHE
(75.5%)**

**CHILLS
(49.2%)**

**MUSCLE PAIN
(42.2%)**

**INJECTION SITE
SWELLING/ REDNESS
(<10%)**

**SWOLLEN LYMPH
NODES(0.8%)**

DID YOU KNOW?

Lymph nodes are part of our
immune system. When we feel
sick or something triggers our
immune system, our lymph
nodes may become swollen.

NO BELL'S Palsy(0%)

NO BLOOD CLOTS(0%)

**NO ALLERGIC
REACTIONS(0%)**

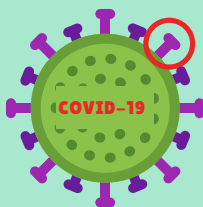

NO DEATHS(0%)

**NO HEART
INFLAMMATION(0%)**

WHAT IS PFIZER?

Pfizer-BioNTech COVID-19 Vaccine is an mRNA vaccine - just like Moderna!
They both work as explained below:

Scientists took these spike proteins from the outer surface of the virus so our body can make instructions on how to fight it off

mRNA!

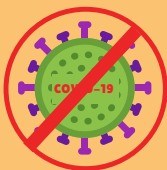

HOW?

The "m" in mRNA stands for **messenger**.
The vaccine sends our body a message to make instructions to learn how to fight the spike proteins if our body sees it.

Once our body gets the message and makes the instructions, the message gets deleted- like when you send a message on snapchat!

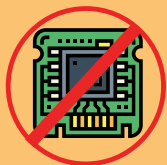

The mRNA vaccines DO NOT give you COVID-19

You will NOT become a zombie

The mRNA vaccine DOES NOT change your DNA

You will NOT get microchipped
