

Guidance on Ordering DOT Enablers and TB Incentives

Ordering DOT Enablers (Juices and Snacks)

- Communities must complete the 'Monthly DOT Enabler Order Form'
- Include quantities of juices and snacks required, and the number of doses to be administered
- Submit the completed form via fax (204-983-0519) or email (mbphu@sac-isc.gc.ca)

Requesting TB Incentives

1. Eligibility

- Communities with active TB cases and/or LTBI are eligible for TB incentive funding.

2. Planning and Approval Process

- Notify ISC Public Health Program Manager (TB) if incentives are requested.
- Program Manager schedules call with Health Director to review procedures.
- Submit proposal including incentive description, cost per client, number of clients, and total annual cost.
- Health Director identifies responsible staff for purchasing/distribution and ensures confidentiality.

3. Implementation and Monitoring

- Community works with DOT Worker and NIC/PHN.
- Distribute incentives based on active cases and contacts.
- Monitor inventory and maintain supply.

4. Suggested Incentive Approaches

- Approx. \$1,100 per TB case and \$1,000 per contact annually.
- Incentives may include items such as gift cards in various denominations or grocery items.
- It is recommended that clients be consulted regarding the type of incentive that would best assist them in adhering to their treatment plan.

5. Treatment Breakdown

- TB Case: ~92 doses
- LTBI (12 weeks): 12 doses
- LTBI (9 months): 78 doses
- WPP: 16 doses (for children under 5 years of age).
